

Tuesday, June 4

BREAKFAST 07:15–08:45

1ST MORNING SESSION – CHAIR: JANUSZ MATKOWSKI

09:00–09:45 Eszter Gselmann: *Polynomial solutions of functional equations - methods with and without spectral theory* (survey talk)

09:50–10:10 Justyna Sikorska: *On a general bilinear functional equation*

COFFEE BREAK 10:15–10:45

2ND MORNING SESSION – CHAIR: KAROL BARON

10:45–11:05 Janusz Matkowski: *Quasi Cauchy quotient means*

11:10–11:30 Tibor Kiss: *On balanced Matkowski means*

LUNCH 13:00–14:00

1ST AFTERNOON SESSION – CHAIR: HENRIK STETKÆR

15:00–15:20 Zsolt Páles: *A common generalization of Bajraktarević and Matkowski means*

15:25–15:45 Paweł Pasteczka: *Invariance property for discontinuous means*

15:50–16:10 Amr Zakaria: *On the equality of Bajraktarević means to quasi-arithmetic means*

COFFEE BREAK 16:15–16:45

2ND AFTERNOON SESSION – CHAIR: WOLFGANG FÖRG-ROB

16:45–17:05 Gyula Maksa: *On a functional equation involving power means*

17:10–17:30 Qian Zhang: *Some Cauchy mean-type mappings for which the arithmetic mean is invariant*

17:35 Problems and Remarks

BARBECUE 18:30–24:00
